

Please complete this package so that we may process your request to become a patient of Misiway Milopemahtesewin Community Health Centre's Primary Care clinic.

The completion of this package begins our New Patient Intake process. If our Health Care Providers are not able to accommodate new patients, you may be waitlisted until an opening is available.

We will contact you to book an intake appointment, during which the Registered Nurse will review your information and discuss our processes and programs, including the **minimal prescription of narcotics** through our chronic pain management program, medication refills and our zero-tolerance policy. The Nurse will then work with our team to determine the best Provider for your health care needs; you will be notified about your Primary Care Provider by telephone, and invited to book your first appointment.

Failure to attend intake appointments will result in closure of your application. You will be asked to reapply, and be required to wait for your package to be reviewed prior to an appointment booking.

Please note that our Primary Care Providers are unable to complete documents such as ODSP forms without first having an established relationship with you over multiple appointments.

Thank you
Meegwetch
